## Student Use of Digital Devices and Online Services

### Purpose

This procedure guides student use of digital devices and online services at our school.

Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in safe, responsible and respectful ways.

### Scope

This procedure provides a consistent framework for the safe, responsible and respectful use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing.

This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

### Our School's Approach

Digital devices and online services are used in classes K-6 as a tool to support learning for educational purposes. Students may be researching, creating, or using known skills in a range of Key Learning Areas. Students do not use devices before and after school; or at recess and lunch. Use of devices on excursions is decided case by case and decisions published at the time of the excursion, eg devices for games and music on long bus trips.

If any student brings a digital device to school, whether for personal or educational use, these must be kept in the students bags throughout the day.

### Consequences for inappropriate use

Parents will be contacted to remove any personal devices if being used inappropriately.

### Contact between students and parents and carers during the school day

Should a student need to make a call during the school day, they must approach a teacher.

During school hours, parents and carers are expected to only contact their children via the school office.
